

Hygiene concept for Tanznacht Berlin

Time slot tickets

A time slot ticket must be reserved to attend any event at the Tanznacht Berlin. The time slot ticket is not transferable.

Visitors are required to submit personal and contact details via our registration portal. All the data will be deleted four weeks after the event.

For the duration of the festival, the Uferstudios can be accessed only via the entrance at Bad Strasse 41a.

Hygiene and security measures

Visitors who have had contact with a Covid positive person or who have symptoms of an upper respiratory infection themselves may not attend any events at Tanznacht Berlin.

All visitors over 6 and all staff members are required to wear mouth/nose protection inside the building and to maintain a minimum social distance of 1.5 metres.

We would like to point out the increased risk of infection at our events to any visitors who cannot wear mouth/nose protection for health reasons.

The festival infopoint and the box office are protected by a plexiglass screen.

Visitors must follow the signposted tours and avoid forming groups inside the building. Display stands are positioned at the entrances and appropriate distances marked out in functional areas to remind visitors of the compulsory hygiene and security measures.

The Ogitrev festival bar and AnaConda bar are open, and offering a limited selection of drinks and snacks. Please note that access is restricted and follow the instructions on site.

Please remember weatherproof clothing if you have booked to attend an open-air event. For reasons of sustainability, we do not offer rain protection. Please note there are no checkroom on the Uferstudio grounds.

What hygiene and conduct requirements must be observed?

Help to protect yourself and others by taking the following measures:

We request that all visitors

- Wear mouth/nose protection throughout and not only indoors
- Maintain a minimum distance of 1.5 metres from other visitors and staff members
- Sneeze and cough into the crook of their arm or into a handkerchief, and to immediately dispose of the handkerchief
- avoid touching surfaces where possible
- regularly and thoroughly wash their hands (for at least 20 seconds) with soap and water
- pay attention to the signs on site and information provided by the staff

What additional hygiene regulations are in place?

The number of visitors to all events is limited. Please follow the signs and distance markers on site.

Entrances and exits are separated. Routes are marked out so that visitors can avoid unnecessary contact. Please follow the instruction signs.

What additional preventive measures are being taken to contain the infection?

Interior spaces are regularly ventilated after 45 minutes, cleaned and disinfected, paying special attention to frequently used surfaces such as door handles and WCs.

Hand sanitation dispensers are located at all entrances.

Visitors sign in at the entrance at Bad Strasse 41a, where they can also purchase mouth/nose protection.

Please note the informations of the production AEON on the program page.
